
ACKNOWLEDGMENT

Funding for this research was provided by grant N00014-91-J-1540 from the United States Office of Naval Research to the Department of Anesthesiology Research Laboratories, University of Maryland, Baltimore. Principal Investigator: Colin. F. Mackenzie. Co-Investigators: Yan Xiao, the LOTAS Group, and a sub-contract to Man-Made Systems (President: Richard Horst, Ph.D.). All investigators thank Susan Chipman and Terry Allard of ONR for their wonderful encouragement and support. The LOTAS group composition has varied over the last 5 years, but has included the following participating anesthesia care providers at the Shock trauma Center and the University of Maryland , Baltimore Department of Anesthesiology:

Colin Mackenzie (Chair), William Bernhard, John Blenko, Cliff Boehm, Hal Cline, Gordon Graig, Alan Cyna, Kenneth Dauphinee, Dee Donolley, Richard Dutton, Frances Forrest, David Gabbott, Kevin Gerold, David Goldstein, Christopher Grande, Richard Horst, Peter Fu-Ming Hu, William "Sandy" Hunter, Mahmood Jaber, Nicholas Jefferies, Murray Kalish, Paul Martin, Jane Matjasko, Brian McAlary, Fergus Millar, Lorynda Niemi, Michael Parr, Bryce Randalls, John Wesolowski, and Yan Xiao

Without the Expertise of Peter Fu-Ming Hu the audio-video data collection Network (VASNET) design and installation would not have been possible. Richard Horst made much contribution to the project, particularly in the design of the studies as well as in the writeup of Chapter 10. In addition the anesthesia, nursing and surgical staff of the Shock Trauma Center made the data acquisition possible, for which we are all very grateful. We had several Graduate Research Assistants assisting in the gathering and analysis of data: Denise Ovelgone, Robert Durocher, Ben Harper and Richard Spencer. In addition statistical support was provided by David Mahaffey, Paul Delaney, and Richard Horst. Document collection and equipment maintenance was supported by Linda Hawkes, Terry Smith and Dennis Woods. Renee Kahn, Alice Eissele and Mary Wright provided administrative assistance.
